

WH15

40mm (1.5 inch) High Pressure Water Pump

Lightweight and compact

Weighing just 22kg it's easy to carry, transport and store.

Excellent performance

The WH15 offers exceptional high pressure performance with lower flow, ideal for sprinkling, jetting, long-hose irrigation or fire fighting applications.

OHV 4-stroke engine

Powerful and efficient with trusted reliability. Easy starting in all conditions with automatic decompression to reduce the pull-force needed.

Cast iron volute and impeller

Superior durability for long life performance, even when pumping abrasive silts and sand.

Oil Alert®

Prevents engine damage by automatically shutting the unit down if the oil drops below a safe operating level.

The WH15 offers exceptional high pressure performance with lower flow, ideal for sprinkling, jetting, long-hose irrigation or fire fighting applications. The combination of a powerful 4-stroke engine and larger diameter impeller means it is capable of producing 4 bars of pressure with up to 40m headlift. The pump features a lightweight, corrosion-resistant aluminium body, durable cast iron volute and impeller and a carbon ceramic mechanical seal. Add to this the super reliable, easy starting engine and tool-free hose couplings and you've got a pump that allows you to concentrate on the job in hand.

Domestic Use
